

MEDIYUM

UX Design Studio

We're a boutique UX design studio based in Goa started by NID Alumni.

Our clients involve startups and museums around the world solving various problems through the use of technology.

We're looking for full time teammates to join our team in Panaji, Goa and build successful long term careers.

HIRING FOR

Interaction Designer

0-3 Years experience

The Interaction Designer is someone who can participate in the following way:

Willingness to learn and explain (to clients and fellow teammates) why a certain interaction/ interface doesn't meet the user needs it intends to.

Willingness to learn to evaluate an interface and suggest design solutions to improve it.

Willingness to analyse and document learnings from precedent and market study of products and their experience.

Willingness to brainstorm with the team and individually and come up with novel ideas to solve problems.

Developing usability tests and metrics to track & analyze the designs.

Working with the UI Designers and developers to create final deliverables.

Skills

Analyse and document learnings from precedent studies and market analysis.

Interaction design skills for mobile and web digital platforms.

Understand user needs and design interactions that meet them.

Requirements

0-3 Years of Experience
